

Name \_\_\_\_\_

**ABSOLUTE VALUE #2**

---

**Directions:** For the problems below, find the *absolute value* of each number. The absolute value of a number, is distance from that number to zero, on a number line. Absolute value is always considered a positive value, never a negative value.

Examples:  $|-7| = 7$

$|7| = 7$

$|-22| = 22$

---

1)  $|5| = \underline{\hspace{2cm}}$

2)  $|-38| = \underline{\hspace{2cm}}$

3)  $|32| = \underline{\hspace{2cm}}$

4)  $|-1| = \underline{\hspace{2cm}}$

5)  $|-281| = \underline{\hspace{2cm}}$

6)  $|5| = \underline{\hspace{2cm}}$

7)  $|60| = \underline{\hspace{2cm}}$

8)  $|-21| = \underline{\hspace{2cm}}$

9)  $|0| = \underline{\hspace{2cm}}$

10)  $|50| = \underline{\hspace{2cm}}$

11)  $|101| = \underline{\hspace{2cm}}$

12)  $|-16| = \underline{\hspace{2cm}}$

13)  $|-93| = \underline{\hspace{2cm}}$

14)  $|-75| = \underline{\hspace{2cm}}$

15)  $|79| = \underline{\hspace{2cm}}$
