## VOLUME OF A CYLINDER \#3

Directions: Find the volume of each cylinder below. The formula for the volume of a cylinder is $V=\pi r^{2} h$. The radius of the circle is represented by $\boldsymbol{r}$ and $\boldsymbol{h}$ stands for the height of the cylinder. Use 3.14 for $\pi$ and round your answers to the nearest tenth. To get the radius, cut each diameter below in half.
